Summary

I am a driven self-taught full-stack developer with 3 years of experience. My passion for technology and programming has led me to pursue a career in full-stack development. I'm committed to delivering high-quality, efficient, and maintainable code. And I am always eager to take on new challenges and expand my skillset to help me grow as a developer.

Skills

GIT - Python - Javascrip - Django - React - Node - Express - SocketIO - NextJs - Sveltekit - VueJs - AngularJs - Firebase - Postgresql - MongoDB - Flask - Redis - Redux - HTML - CSS - and More..

Experience

Chatvite Platform chatvite.vercel.app ↗

Built using Next.js, MongoDb, SocketIo and other powerful technologies, ChatVite is a full-stack web application that provides a rich set of features for both public and private chatrooms. The platform includes features such as real-time chat, group and private chatroom creation, and AI-powered chatbots to keep conversations engaging and interactive.

Codedeluxe codedeluxe.vercel.app ↗

Codedeluxe is a cutting-edge blog post platform designed for tech enthusiasts, developers, and anyone interested in learning programming. To ensure a smooth and engaging user experience, Codedeluxe leverages the power of SvelteKit for fast-loading pages, smooth navigation, and an intuitive interface for users to explore the vast collection of tech-related content.

TETI teti-gm.vercel.app ↗

(Tech Electrical Training Institute). With SvelteKit, TETI's website is fast, responsive, and easy to use. Users can easily navigate the website to find information about TETI's various courses and services, including detailed descriptions, prices, and schedules. The website also provides users with the ability to register and enroll in courses, purchase products, and schedule service appointments.

RapidCheck rapidcheck.vercel.app ↗

RapidCheck is an advanced web application built with Angular, Tailwind CSS, Axios, and CodeMirror, offering an enhanced experience for testing RESTful APIs. With its rich set of features, including request grouping, history management, and more, RapidCheck takes API testing to the next level. To ensure optimal compatibility and performance, RapidCheck leverages Vite, a high-performance build tool.
